IDENTITY EXPLORATION · V1

ParleSprint

Ten logo directions for the TCF Canada coach.
Built on the Northstar system: warm ink, earned gold, ivory light.
One idea per mark. No flags, no mascots, no props.

Prepared October 13, 2026 · for review and direction selection

01

Momentum

A speech bubble carrying an arrow. Conversation that moves you forward.

- Reads instantly at 18 px; one shape, one direction.
- The arrow points up-right: progress, immigration, the next checkpoint.
- Ownable double meaning: the send-arrow of a chat becomes forward motion.

02

Northstar

A four-point star with a companion spark. The guide that always knows what is next.

- Named for the product palette itself: Northstar Studio.
- Star = the goal; the smaller spark = Marie or the learner beside it.
- Premium, calm, and works in one color at any size.

03

Parle Accent

A geometric lowercase p topped by a flying acute accent. French through typography, not props.

- The accent recalls parle and a spark of momentum at once.
- Lowercase keeps the brand warm; the gold accent keeps it sharp.
- Wordmark option: parlesprint with the accent over the e.

04

Crescendo

Four voice bars rising, the last one gold. Speaking practice that compounds.

- Voice-first identity: the bars are Marie's waveform.
- Ascending steps = the daily path; the gold bar = mastery unlocked.
- Animates beautifully: bars can pulse during a live session.

05

The Path

Checkpoints on a rising path ending at a star. The governed daily journey to the exam.

- Literal picture of the product promise: today to checkpoint to goal.
- Dots map to New, Building, Ready; the star is TCF day.
- Different from every language app on the store shelf.

06

Bubble P

The bowl of the P is a speech bubble. One color, one idea, endlessly reproducible.

- Initials plus category in a single glyph: ParleSprint, spoken.
- Survives embroidery, favicons, and watch complications.
- The counter-dot can carry state: gold for live, ivory for idle.

07

Sprint Lines

Three lesson lines, the middle one breaks into an arrow. Content in motion.

- Gold tile is a bold shelf presence next to Duolingo and Babbel.
- The arrow-lane is the sprint; the quiet bars are structured lessons.
- Inverts cleanly for dark mode and marketing use.

08

Voice Ring

An open listening ring with a mic at the center. Marie, always there when you speak.

- The gap in the ring becomes the speech tail: a call you can enter.
- Feels like a live session indicator, which is the product's peak moment.
- Calm and circular; pairs with the Today screen's one-action layout.

09

Two Voices

Learner bubble meets Marie's gold bubble. A spark appears where they overlap.

- The product story in one mark: dialogue with a live tutor.
- Spark only exists when both voices meet; progress through conversation.
- Warm and human without drifting into mascot territory.

Heritage Bolt

The shipping icon, refined. Slimmer bolt, corrected bowl, calmer geometry.

- Evolution, not revolution: keeps earned recognition.
- Bolt reads as the 'sprint' and as the accent-like cut through the P.
- Zero rebrand cost: same colors, same silhouette family.

RECAP

Ten directions, one decision

01 · Momentum

02 · Northstar

03 · Parle Accent

04 · Crescendo

05 · The Path

06 · Bubble P

07 · Sprint Lines

08 · Voice Ring

09 · Two Voices

10 · Heritage Bolt

Recommendation: shortlist by silhouette first (which shape is unmistakable in the Dock?), then by story (which idea would you defend in one sentence?). Approved direction gets a full type, color and usage pass next.
